Revelation 13

The Beast out of the Sea

13 The dragon stood on the shore of the sea. And I saw a beast coming out of the sea. It had ten horns [10 Corporate regions] and seven heads, with ten crowns on its horns, and on each head a blasphemous name.

2 The beast I saw resembled a leopard, but had feet like those of a bear and a mouth like that of a lion.

The dragon gave the beast his power and his throne and great authority.

3 One of the heads of the beast seemed to have had a fatal wound, but the fatal wound had been healed. The whole world was filled with wonder and followed the beast.

4 People worshiped the dragon because he had given authority to the beast, and they also worshiped the beast and asked, "Who is like the beast? Who can wage war against it?"

5 The beast was given a mouth to utter proud words and blasphemies and to exercise its authority for forty-two months.

6 It opened its mouth to blaspheme God, and to slander his name and his dwelling place and those who live in heaven.

7 It was given power to wage war against God's holy people and to conquer them. And it was given authority over every tribe, people, language and nation.

8 All inhabitants of the earth will worship the beast—all whose names have not been written in the Lamb's book of life, the Lamb who was slain from the creation of the world

1. Agenda 2021 aka Covid-19: The Great Reset aka World Debt Reset Program

Covid-19: The Great Reset

aka Agenda 21

aka **World Debt Reset Program**

The WEF-UN partnership agreement (Between Private and Public Partnership (PPP)) will de-legitimize the United Nations (and sovereign Nation States) and provide transnational corporations preferential and deferential access to the UN System (and each Nation State...)

The provisions of the strategic partnership effectively provide that corporate leaders will become 'whisper advisors' to the heads of UN system departments, using their private access to advocate market-based profit-making 'solutions' to global problems while undermining real solutions embedded in public interest and transparent National democratic procedures.

The goal is to weaken the role of Nation states in global decision-making and to elevate the role of a new set of 'stakeholders' (BAR corporations), turning our multilateral system into a multistakeholder system, in which companies are part of the governing mechanisms.

PPPs are used to conceal public borrowing, while providing long-term state guarantees for profits to private companies. Private sector corporations must maximise profits if they are to survive.

Covid-19: The Great Reset agenda aka, Agenda 21, aka **World Debt Reset Program** is playing out in real-time right now, which has been in the planning works for a long time....going back a 100 years is a good starting point for reference....

Those (Private 'stakeholders') who have controlled the Federal Reserve for the last 100 years (Are the same now bankrupt and cannot feed their corporations...because their 100 year US Corporation contract to print 'fiat' money is up. They knew this time would come some time ago....so they prepared and needed false-flag events to shut down the economic system, to which hijack and re-bankrupt their US Corporation contract & recreate a new USA Corporation and using American Debt (actually US Corp Debt) as collateral against the nation in a new scam USA Corporation.

- This would allow them to continue to control each nation through their new world order - UN controlled Global Reset agenda 21....by creating a new world debt reset program by the same Neo-Liberal BAR FED/London Banking and Corporations (300) that controls the world for the last 100 years.

2020 - All private and public sectors in most nation states are in total "Lock Step" stages with the UN/WEF/IMF "Covid-19: The Great Reset" agenda that was announced in June 2020 by Klaus Schwab, World Economic Forum (WEF), the IMF and UN Global agenda (The UN that was original started by the Rockefeller Foundations & now carried forwarded by Klaus Schwab the Bill Gates Foundations.

Agenda 21 – 30: History of Eugenics Virus's and Vaccines Agenda

On the 100 year anniversary of the Spanish Flu

1918-19...Rockefeller Eugenics program and vaccine caused the Spanish Flu outbreak.

WHERE DID THE SPANISH FLU PNEUMONIA OF 1918-19 ORIGINATE?

When the United States declared war in April 1917, the fledgling Pharmaceutical industry had something they had never had before - a large supply of human test subjects in the form of the US military's first draft.

During the war years 1918-19, the US Army ballooned to 6,000,000 men, with 2,000,000 men being sent overseas. The Rockefeller Institute for Medical Research took advantage of this new pool of human guinea pigs to conduct vaccine experiments.

The pandemic was not flu. An estimated 95% (or higher) of the deaths were caused by bacterial pneumonia, not influenza virus.

The pandemic was not Spanish. The first cases of bacterial pneumonia in 1918 trace back to a military base in Fort Riley, Kansas.

From January 21 - June 4, 1918, an experimental bacterial meningitis vaccine cultured in horses by the Rockefeller Institute for Medical Research in New York was injected into soldiers at Fort Riley.

During the remainder of 1918 as those soldiers – often living and traveling under poor sanitary conditions – were sent to Europe to fight, they spread bacteria at every stop between Kansas and the frontline trenches in France.

One study describes soldiers “with active infections (who) were aerosolizing the bacteria that colonized their noses and throats, while others—often, in the same “breathing spaces”—were profoundly susceptible to invasion of and rapid spread through their lungs by their own or others’ colonizing bacteria.”

The “Spanish Flu” attacked healthy people in their prime. Bacterial pneumonia attacks people in their prime. Flu attacks the young, old and immunocompromised.

When WW1 ended on November 11, 1918, soldiers returned to their home countries and colonial outposts, spreading the killer bacterial pneumonia worldwide.

During WW1, the Rockefeller Institute also sent the antimeningococcal serum to England, France, Belgium, Italy and other countries, helping spread the epidemic worldwide.

During the pandemic of 1918-19, the so-called “Spanish Flu” killed 50-100 million people, including many soldiers. https://www.algora.com/Algora_blog/2020/02/06/spanish-flu-of-1918-was-really-a-bioterror-attack-on-humanity (or https://vaccineimpact.com/2018/did-military-experimental-vaccine-in-1918-kill-50-100-million-people-blamed-as-spanish-flu/?fbclid=IwAR3yYtX2ViknNbnh_gvob7oWX_R_r7MIZQxCuTTcyoeUapmFyMWCKuLS68

2019-20 - Now a hundred years later we have Covid-19 in Lock Step to ‘Lock Down’ sovereign Nations by the UN Global agenda 21, which will allow ‘private-public partnership’ (Corporations) have control over each nations systems through the UN.

UN ‘Green Movement’ aka Agenda 21 Sustainable Management of Resources (and People)

1972 - Maurice Strong (Club of Rome) was chair of the 1972 United Nations Conference on Human Environment, the beginning of the modern area “Green Movement”

1976 - Al Gore has been involved with the environment for a number of decades. In 1976, at 28, after joining the United States House of Representatives, Gore held the “first congressional hearings on the climate change, and co-sponsor[ed] hearings on toxic waste and global warming.”

He continued to speak on the topic throughout the 1980s and was known as one of the Atari Democrats, later called the “Democrats’ Greens, politicians who see issues like clean air, clean water and global warming ‘as the key to future victories’ for their part.

Sept 11 1990 - *George H.W. Bush’s speech before a joint session of Congress on Sept. 11, 1990, in which he describes his vision of a new world order amid the Persian Gulf crisis.*

Out of these troubled times, our fifth objective – a new world order – can emerge: a new era..... A hundred generations have searched for this elusive path to peace, while a thousand wars raged across the span of human endeavor.....

Today that new world is struggling to be born, a world quite different from the one we’ve known.A world where the rule of law supplants the rule of the jungle [complete] opposite: rule of the jungle supplants rule of

law] A world in which nations recognize the [UN] shared responsibility for freedom and justice.A world where the strong respect [steal] the rights of the weak.

UN Agenda 21 - Global Warming aka Climate Change aka Carbon Tax

Sept 11 2001 - World Trade Centres ...Cantor Fitzgerald's **CO2e.com/eSpeed** division...in one building and the other company....**Aon Corp Insurance**..in the other tower... which were their floors both planes hit and destroyed first before each building came down.

Cantor Fitzgerald/CO2e.com/eSpeed held the patent on software which would **later be used in trillions of dollars' worth of carbon emissions trading**.

[NWO-UN-Agenda] - The Carbon Disclosure Project (CDP), "a special project of Rockefeller Philanthropy Advisers, with US IRS 501(c)(3) charitable status, with the [alleged] sole purpose of providing a co-ordinating secretariat for the participating funders and investors, in order to increase economic global awareness of risks and opportunities of carbon emissions' consequences on the climate," was launched on December 4, 2000 at 10 Downing Street in London by UK Prime Minister Tony Blair and UK Secretary of State for International Development, Clare Short.

The CDP "gathers 534 investors with a combined **US\$64 trillion** in assets under management, in order to increase economic global awareness of risks and opportunities of carbon emissions' [alleged] consequences on the climate".

The attack on the WTC's - Cantor Fitzgerald/CO2e.com and Aon Insurance was even more important than the cover-up the clearing of \$240 billion dollars in securities covertly created in September 1991 to fund a covert economic war against the Soviet Union or the denying China's gold back to them.

The future of the UN carbon-tax agenda.....this \$64Trillion [alleged] went to the **World Worshipping Trade Organization** in the City of London - part of the 2nd BAR Temple Crown....that controls USA and other world Corporations.....as an example....The 1st BAR Temple Crown controls all the British commonwealth Colonies...like Canada.

90 Scientists: Global Warming Is a Total Hoax

Not only does man-caused global warming not exist, but it is also the scientific hoax of the century. And [90 leading Italian scientists say so.](#)

All of them signed a detailed letter to lawmakers which challenges the claim that man is causing catastrophic global warming, and that CO₂ emissions are the culprit.

They argue that our policies with regard to global warming should not be based on hysterics but should be “consistent with scientific knowledge.” I couldn’t agree more.

So if we are going to base our view of climate change on science, the first thing we need to accept, say these scientists, is that “CARBON DIOXIDE IS NOT ITSELF A POLLUTANT.” (Emphasis in original, except where noted.) The view that CO₂ is a pollutant is the single biggest lie of the entire environmental movement.

CO₂ is not a pollutant, it is plant food. It is, as these scientists say, “indispensable for life on our planet.” Plants absorb CO₂ and use it to grow. They also release oxygen into the atmosphere, which is a nice thing if you like to breathe.

If you run a greenhouse and you want to turbo-charge plant growth, you can do it by injecting CO₂ into the greenhouse. Side by side videos of plants in an environment with normal CO₂ levels and plants in an environment with highly elevated levels of CO₂ show an astounding difference in the rate of growth. In fact, an area the size of the United States has greened up around the world as the CO₂ concentration has increased. CO₂ is not our enemy. CO₂ is our friend.

These scientists go on to state flatly that “the anthropic origin of global warming is an UNPROVEN HYPOTHESIS, deduced only from some climate simulation models.” In other words, the entire catastrophic global warming scare rests on very imprecise and almost invariably wrong simulation models, which cannot account for natural variability.

“Natural variability,” in fact, “explains a substantial part of global warming observed since 1850.” It is irresponsible and unrealistic to blame warming on human beings, and further, it’s nonsense to believe all the doom and gloom warnings. “The advanced alarmist forecasts, therefore, are not credible, since they are based on models whose results contradict the experimental data.” (Emphasis mine.) The climate simulation models “overestimate the anthropic contribution and underestimate the natural climatic variability.”

For instance, there is no correlation between rising CO₂ levels and increased tropical cyclone activity. There is, however, a strong correlation between cyclonic activity and the completely natural Atlantic Multidecadal Oscillation, an oscillation that runs in roughly 60-year cycles.

These scientists also completely blow up the myth that science is in any way based on a show of hands, which is what five-alarm environmentalists want us to believe. “The scientific method dictates that **the facts, not the number of adherents**, make a conjecture a consolidated scientific theory.” (Emphasis mine.)

They themselves are living proof - all 90 of them - that “the alleged consensus (on global warming) DOES NOT EXIST.” Their petition itself demonstrates clearly the absence of a scientific consensus on the matter.

The list of signers includes professors of physics, atmospheric physics, physical chemistry, natural sciences, environmental engineering, astronomy, applied geology, volcanology, meteorology and climatology, oceanography, satellite interferometry (whatever that is), hydrogeology, and probability and mathematical statistics. In other words, these are outstanding and highly credentialed scientists. They know what they are talking about.

Their bottom line: "Nature, not the activity of Man, governs the climate."

And since in America, we believe in "Nature's God," it is, in fact, God who governs the climate. Man can't do a thing about that. Man-caused, catastrophic global warming, folks, is a sham, a scam, and a hoax. Don't fall for it. Science has your back on that one.

Sustainable Global Redesign Initiative - Agenda 21/30 - Public/Private Partnerships

2010 The Global Redesign Initiative

World Economic Forum (WEF)-UN Public-Private Partnership (PPP) Agreements

A public-private partnership (PPP, 3P, or P3) is a cooperative arrangement between two or more public and private sectors, typically of a long-term nature. In this case with each Nation Members

World Economic Forum (WEF) in their 2010 "The Global Redesign Initiative" argued that the first step toward their 'global governance' vision is 'to redefine' the international system as constituting a wider, multifaceted system of global cooperation in which intergovernmental legal frameworks and institutions are embedded as a core, but not the sole and sometimes not the most crucial, component.

The goal was to weaken the role of [nation]states in global decision-making and to elevate the role of a new set of 'stakeholders' (Corporations), turning our multilateral system into a multistakeholder system, in which companies are part of the governing mechanisms.

2010 Rockefeller Foundation:

Scenarios for the Future of Technology and International Development

Global Political and Economic Alignment

Once crossed, these axes create a matrix of four very different futures:

LOCK STEP - A world of tighter top-down government control and more authoritarian leadership, with limited innovation and growing citizen pushback

CLEVER TOGETHER - A world in which highly coordinated and successful strategies emerge for addressing both urgent and entrenched worldwide issues

HACK ATTACK - An economically unstable and shock-prone world in which governments weaken, criminals thrive, and dangerous innovations emerge

SMART SCRAMBLE - An economically depressed world in which individuals and communities develop localized, makeshift solutions to a growing set of problems

Page 18-25 - "Lock Step" Scenarios ... to prepare government & corporations in 2010 - for 'Lock Step' playing out in 2020)

Scenario in 2012: brought into effect in 2020

In 2012, the pandemic that the world had been anticipating for years finally hit. Unlike 2009's H1N1, this new influenza strain—originating from wild geese—was extremely virulent and deadly. Even the most pandemic-prepared nations were quickly overwhelmed when the virus streaked around the world, infecting nearly 20 percent of the global population and killing 8 million in just seven months, the majority of them healthy young adults.

The pandemic also had a deadly effect on economies: international mobility of both people and goods screeched to a halt, debilitating industries like tourism and breaking global supply chains. Even locally, normally bustling shops and office buildings sat empty for months, devoid of both employees and customers.

The pandemic blanketed the planet—though disproportionate numbers died in Africa, Southeast Asia, and Central America, where the virus spread like wildfire in the absence of official containment protocols. But even in developed countries, containment was a challenge.

The United States initial policy of “strongly discouraging” citizens from flying proved deadly in its leniency, accelerating the spread of the virus not just within the U.S. but across borders.

However, a few countries did fare better—China in particular. The Chinese government's quick imposition and enforcement of mandatory quarantine for all citizens, as well as its instant and near-hermetic sealing off of all borders, saved millions of lives, stopping the spread of the virus far earlier than in other countries and enabling a swifter post- pandemic recovery.

China's government was not the only one that took extreme measures to protect its citizens from risk and exposure. During the pandemic, national leaders around the world flexed their authority and imposed airtight rules and restrictions, from the mandatory wearing of face masks to body-temperature checks at the entries to communal spaces like train stations and supermarkets.

Even after the pandemic faded, this more authoritarian control and oversight of citizens and their activities stuck and even intensified. In order to protect themselves from the spread of increasingly global problems—from pandemics and transnational terrorism to environmental crises and rising poverty—leaders around the world took a firmer grip on power.

At first, the notion of a more controlled world gained wide acceptance and approval. Citizens willingly gave up some of their sovereignty—and their privacy—to more paternalistic states in exchange for greater safety and stability.

Citizens were more tolerant, and even eager, for top-down direction and oversight, and national leaders had more latitude to impose order in the ways they saw fit. In developed countries, this heightened oversight took many forms: biometric IDs for all citizens, for example, and tighter regulation of key industries whose stability was deemed vital to national interests. In many developed countries, enforced cooperation with a suite of new regulations and agreements slowly but steadily restored both order and, importantly, economic growth.

Across the developing world, however, the story was different—and much more variable. Top-down authority took different forms in different countries, hinging largely on the capacity, caliber, and intentions of their leaders. In countries with strong and thoughtful leaders, citizens' overall economic status and quality of life increased. In India, for example, air quality drastically improved after 2016, when the government outlawed high- emitting vehicles.

In Ghana, the introduction of ambitious government programs to improve basic infrastructure and ensure the availability of clean water for all her people led to a sharp decline in water-borne diseases. But more authoritarian leadership worked less well—and in some cases tragically—in countries run by irresponsible elites who used their increased power to pursue their own interests at the expense of their citizens.

There were other downsides, as the rise of virulent nationalism created new hazards: spectators at the 2018 World Cup, for example, wore bulletproof vests that sported a patch of their national flag. Strong technology regulations stifled innovation, kept costs high, and curbed adoption.

In the developing world, access to “approved” technologies increased but beyond that remained limited: the locus of technology innovation was largely in the developed world, leaving many developing countries on the receiving end of technologies that others consider “best” for them.

“IT IS POSSIBLE TO DISCIPLINE AND CONTROL SOME SOCIETIES FOR SOME TIME, BUT NOT THE WHOLE WORLD ALL THE TIME.” - GK Bhat, TARU Leading Edge, India

Some governments found this patronizing and refused to distribute computers and other technologies that they scoffed at as “second hand.” Meanwhile, developing countries with more resources and better capacity began to innovate internally to fill these gaps on their own.

Meanwhile, in the developed world, the presence of so many top-down rules and norms greatly inhibited entrepreneurial activity. Scientists and innovators were often told by governments what research lines to pursue and were guided mostly toward projects that would make money (e.g., market-driven product development) or were “sure bets” (e.g., fundamental research), leaving more risky or innovative research areas largely untapped.

Well-off countries and monopolistic companies with big research and development budgets still made significant advances, but the IP behind their breakthroughs remained locked behind strict national or corporate protection. Russia and India imposed stringent domestic standards for supervising and certifying encryption-related products and their suppliers—a category that in reality meant all IT innovations.

The U.S. and EU struck back with retaliatory national standards, throwing a wrench in the development and diffusion of technology globally.

Especially in the developing world, acting in one’s national self-interest often meant seeking practical alliances that fit with those interests—whether it was gaining access to needed resources or banding together in order to achieve economic growth. In South America and Africa, regional and sub-regional alliances became more structured. Kenya doubled its trade with southern and eastern Africa, as new partnerships grew within the continent.

China’s investment in Africa expanded as the bargain of new jobs and infrastructure in exchange for access to key minerals or food exports proved agreeable to many governments. Cross-border ties proliferated in the form of official security aid. While the deployment of foreign security teams was welcomed in some of the most dire failed states, one-size-fits-all solutions yielded few positive results.

By 2025, people seemed to be growing weary of so much top-down control and letting leaders and authorities make choices for them.

Wherever national interests clashed with individual interests, there was conflict. Sporadic pushback became increasingly organized and coordinated, as disaffected youth and people who had seen their status and opportunities slip away—largely in developing countries—incited civil unrest. In 2026, protestors in Nigeria brought down the government, fed up with the entrenched cronyism and corruption.

Even those who liked the greater stability and predictability of this world began to grow uncomfortable and constrained by so many tight rules and by the strictness of national boundaries. The feeling lingered that sooner or later, something would inevitably **upset the neat order that the world's governments had worked so hard to establish.**

2010 “Decade of Vaccines” Action Plan

...Funded by Bill & Melinda Gates Foundation with John Hopkins Center for Health

Decade of Vaccines — The Global Vaccine Action Plan (GVAP) was endorsed by the 194 Member States of the World Health Assembly in May 2012 to achieve the Decade of Vaccines vision by delivering universal access to immunization.

The GVAP mission is to improve health by extending by 2020 and beyond the full benefits of immunization to all people, regardless of where they are born, who they are or where they live.

Immunization Economics

The Decade of Vaccine Economics (DOVE), housed at the International Vaccine Access Center at the Johns Hopkins **Bloomberg School** of Public Health, aims to generate economic evidence on vaccine impact in low- and middle-income countries (LMICs)

The project began in 2011 and is in its fourth phase (2020).

Phases I-III focused on building economic models to estimate the cost of illness, return-on-investment, and the cost of financing vaccine programs.

Phase IV aims to expand on previously developed economic models by updating the estimate of the ‘return-on-investment’ (ROI) of vaccines.

Sustainable Population Management Agenda 21/30 - Covid Health Crisis

Oct 18 2019 - Event 201 'pandemic simulation' held in NYC

The event was sponsored by the Johns Hopkins Center for Public Health, the Bill and Melinda Gates Foundation (BMGF) and the World Economic Forum (WEF), the club of the rich and powerful that meets every January in Davos, Switzerland.

Participating were a number of pharmaceuticals (vaccine interest groups), as well as the Centers for Disease Control and Prevention (CDC)'s of the US and - of China.

One of the objectives of Event 201 was a computer simulation of a corona virus pandemic. **The simulated virus was called SARS-2-nCoV, or later 2019-nCoV.**

The simulation results were disastrous, killing 65 million people in 18 months and plunging the stock market by more than 30% - causing untold unemployment and bankruptcies. Precisely the scenario of which we are now living the beginning.

The Lock Step scenario - foresees a number of ghastly and disturbing events or components of The Plan to be implemented by the so-called Agenda ID2020, a Bill Gates creation, fully integrated into the UN's Sustainable Development Goals (SDG) - target date for completion - 2030 (also called Agenda 2030, the hidden agenda unknown to most of the UN members), the same target date for completion of the Agenda ID02020.

Here, just the key elements as a precursor to what the world is living now, and what is to come, if we don't stop it - to demonstrate how this entirely criminal sham has been planned. Parts of the scenario are:

- A massive vaccination program, probably through compulsory vaccination - Bill Gates' dream and brainchild is vaccinating 7 billion people.
- Massive population reduction, a eugenics plan - in part through vaccination and other means (Ref. Bill Gates, *"if we are doing a real good job vaccinating, we may reduce the world population by 10% to 15%"*. See "Innovating to Zero!", speech to the TED2010 annual conference, Long Beach, California, **February 18, 2010**
- 2010 - Bill Gates has been advocating for years the need for a massive population reduction - and indeed the more than 20 years of the BMGF's extensive vaccination programs in Africa, India and other places around the world have seen a record of involuntary sterilization of women between 14 and 49 years. <https://www.youtube.com/watch?v=JaF-fq2Zn>

Revelations 13:

15 The second beast was permitted to give breath to the image of the first beast, so that the image could speak and cause **all who refused to worship it to be killed.**

16 And the second beast **required all people small and great, rich and poor, free and slave, to receive a mark on their right hand or on their forehead,**

17 so that no one could buy or sell unless he had the mark—the name of the beast or the number of its name.

18 Here is a call for wisdom: **Let the one who has insight calculate the number of the beast, for it is the number of a man, and that number is 666...**

Revelations 14: 6-

6 Then I saw another angel flying overhead, with the eternal gospel to proclaim to those who dwell on the earth—to every nation and tribe and tongue and people.

7 And he said in a loud voice, “Fear God and give Him glory, because the hour of His judgment has come.
Worship the One who made the heavens and the earth and the sea and the springs of waters.”

8 Then a second angel followed, saying, “Fallen, fallen is **Babylon the great, who has made all the nations drink the wine of the passion of her immorality.**”

9 And a third angel followed them, calling out in a loud voice, “**If anyone worships the beast and its image, and receives its mark on his forehead or on his hand,**

10 he too will drink the wine of God’s anger, poured undiluted into the cup of His wrath. And he will be tormented in fire and sulfur in the presence of the holy angels and of the Lamb.

11 And the smoke of their torment rises forever and ever. Day and night there is **no rest for those who worship the beast and its image, or for anyone who receives the mark of its name.**”

12 Here is a call: **for the perseverance of the saints who keep the commandments of God and the faith of Yesus.**

Summary

COVID-19 threatens to become one of the most difficult tests faced by humanity in modern history. As the pandemic has spread it has taken lives, stirred anxiety and political drama, overwhelmed health systems, and triggered potentially lasting geopolitical change.

The International Monetary Fund (IMF) says the global economy is headed for a deep recession in 2020, and Oxfam International has warned that half a billion people could be pushed into poverty as a result of the unfolding crisis.

Around the world, desperate efforts are underway to contain what has become a profoundly disruptive outbreak.

Klaus Schwab, founder & executive Chairman of the World Economic Forum (WEF)

In June, the 82yr. old Schwab – co-authored "COVID-19: The Great Reset,"

A book that claimed the COVID-19 pandemic lockdowns opened the door for the economic reforms he has long sought.

"The possibilities for change and the resulting new order are now unlimited and only bound by our imagination."

"COVID-19: The Great Reset" - is a guide for anyone who wants to understand how COVID-19 disrupted our social and economic systems, and what changes will be needed to create a more inclusive, resilient and sustainable world going forward.

Sept 2020 - **Canada commitment to the UN's: The Great Reset**

In Canada, Justin Trudeau has publicly tied the country's COVID-19 recovery to *The Great Reset* as well as the 2030 objectives of the U.N.

In a video conference to a U.N. audience in September, Justin Trudeau stated:

"This pandemic has provided an opportunity for a reset."

"This is our chance to accelerate our pre-pandemic efforts to reimagine economic systems that actually address global challenges like extreme poverty, inequality and climate change..."

Building back better means getting support to the most vulnerable while maintaining our momentum on reaching the 2030 Agenda for Sustainable Development.”

Archbishop Carlo Maria Vigano warns Trump about ‘Great Reset’ plot to ‘subdue humanity,’ destroy freedom.

A global plan called the **Great Reset** is underway. Its architect is a global élite that wants to subdue all of humanity, imposing coercive measures with which to drastically limit individual freedoms and those of entire populations.

In several nations this plan has already been approved and financed; in others it is still in an early stage. Behind the world leaders [Canada] who are the accomplices and executors of this infernal project, there are unscrupulous characters who finance the **World Economic Forum** and **Event 201**, promoting their agenda.

The purpose of the *Great Reset* is the imposition of a **health dictatorship** aiming at the imposition of liberticidal measures, hidden behind tempting promises of ensuring a universal income and cancelling individual debt. The price of these concessions from the International Monetary Fund (**IMF**) will be the renunciation of private property and adherence to a program of vaccination against Covid-19 and Covid-21 **promoted by Bill Gates with the collaboration of the main pharmaceutical groups.**

Beyond the enormous economic interests that motivate the promoters of the *Great Reset*, the imposition of the vaccination will be accompanied by the requirement of a health passport and a **digital ID**, with the consequent contact tracing of the population of the entire world.

Those who do not accept these measures will be confined in detention camps or placed under house arrest, and all their assets will be confiscated.

The pandemic also made a cameo appearance Thursday when Canada’s Environment Minister Jonathan Wilkinson spoke at a press conference to announce Ottawa’s new net-zero **2050 carbon emissions legislation.**

The new law, he said, is a “key piece of the government’s overall plan to **build back better** as we emerge **from the pandemic** into a brighter, cleaner and more prosperous future.”

What we have is an upfront, publicly co-ordinated, globe-spanning political power campaign to use the COVID-19 pandemic as a launch pad for a reshaping of the global economy.

The main driving force behind The Great Reset is the World Economic Forum and its founder, Klaus Schwab.

Other world leaders are also set to reset, especially Joe Biden, whom WEF Klaus Schwab sees as a fellow-traveller who will “boost multilateralism” and join The Great Reset.

Schwab and the WEF should remain the focus of critical attention as his movement to reset the fundamental principles of a freedom-based market economy grabs the COVID spotlight in coming weeks. A major WEF reset Davos summit is set for January 2021.

The WEF website is the global agit-prop central launch pad for pandemic-driven policy activism. Schwab is also backed by the powercrats at the UN, IMF and other global governance agencies – along with hundreds of private-sector players.

The global business consultancy McKinsey, a “strategic” WEF partner, recently issued a report titled “Rethinking the future of American capitalism.”

In a new book coming in January 2021, Stakeholder Capitalism, Schwab will trumpet the merits of breaking down the shareholder model for corporate control and replacing it with a new governance system that will shift political power into the hands of corporate executives backed by governments and bureaucrats.

With the book, Schwab is closing in on where much of The Great Reset began, back in 1973 when he issued the first Davos Manifesto, sub-titled “A Code of Ethics for Business Leaders.”

The manifesto was intended as a direct hit on Nobel economist Milton Friedman’s powerful and influential 1970 essay: “The Social Responsibility Of Business Is to Increase Its Profits.”

Earlier this year, Schwab told the Financial Times that his aim has been to beat back Friedman.

“What was for me always disturbing was that Milton Friedman gave a moral reasoning to shareholder capitalism – [he argued] the role of business was to make business earn as much as possible and then the money would flow back from the company to the government in the form of taxes. I had to fight against the wave.”

Through the last quarter of the 20th century, Friedman’s ideas were the wave that drove much of corporate governance and government policy, based on economic freedom and competition. Today, Klaus Schwab is leading a wave to use the pandemic to reset the world economic order.

Open Letter UN members with a large list of Endorsers (not dated?)

Corporate capture of global governance: The World Economic Form (WEF)- UN Public-Private Partnership (PPP) agreement is a dangerous threat to the UN system [actually to Sovereign Nations and laws]

Open Letter:

We are very concerned that this WEF-UN partnership agreement will de-legitimize the United Nations and provide transnational corporations preferential and deferential access to the UN System.

The provisions of the strategic partnership effectively provide that corporate leaders will become ‘whisper advisors’ to the heads of UN system departments, using their private access to advocate market-based profit-making ‘solutions’ to global problems while undermining real solutions embedded in public interest and transparent democratic procedures.

This public-private partnership will permanently associate the UN with transnational corporations, some of whose core essential activities have caused or worsened the social and environmental crises that the planet faces. This is a form of corporate capture.

The UN's acceptance of this partnership agreement moves the world toward WEF's aspirations for multistakeholderism becoming the effective replacement of multilateralism.

WEF in their 2010 The Global Redesign Initiative argued that the first step toward their global governance vision is ‘to redefine the international system as constituting a wider, multifaceted system of global cooperation in which intergovernmental legal frameworks and institutions are embedded as a core, but not the sole and sometimes not the most crucial, component.

The goal was to weaken the role of states in global decision-making and to elevate the role of a new set of ‘stakeholders’, turning our multilateral system into a multistakeholder system, in which companies are part of the governing mechanisms.

This would bring transnational corporations, selected civil society representatives, states and other non-state actors together to make global decisions, discarding or ignoring critical concerns around conflicts of interest, accountability and democracy.

Why PPP – Public-Private Partnerships Don’t Work

“Why public-private partnerships don’t work” is the culmination of thirty years’ experience with and assessment of privatization, in countries both rich and poor. It demystifies the shadowy PPP processes, most of which hide behind confidential negotiations to protect commercial secrecy. There are no public consultations, lots of false promises, and incredibly complex contracts, all designed to protect corporate profits. There is also a fair amount of bribery, as privatization contracts can be extremely valuable.

PPPs are used to conceal public borrowing, while providing long-term state guarantees for profits to private companies. Private sector corporations must maximize profits if they are to survive. This is fundamentally incompatible with protecting the environment and ensuring universal access to quality public services.

These privatization policies are also linked to the new wave of trade negotiations (TISA, TPP, TTIP), also secretive, without public consultation, agreed behind closed doors and heavily influenced by business interests. These trade deals not only facilitate PPPs but will also lock them in, making it next to impossible to reverse them, regardless of outcomes.

A further danger is the recent effort by the World Bank, the G20, OECD and others to 'financialize' PPPs in order to access the trillions of dollars held by pension funds, insurance companies and other institutional investors.

To access these funds, governments are advised to do a whole lot of PPPs at the same time in order to create a pool of assets that can then be bundled and sold on to long-term investors. This is exactly what the financial services companies did with home mortgages at the turn of the century, which brought us the global financial crisis of 2008.

Global elites are pushing for 'stakeholder' capitalism...here's what that means.

The far-left and global elites continue to push for the 'Great Reset' – a plan supported by the World Economic Forum as a way to recover from the COVID pandemic and to also combat additional crises, like climate change. Part of that plan includes a transition to stakeholder capitalism – but, what does that actually mean?

Bob Marley - Get Up Stand Up

Preacher man, don't tell me, Heaven is under the earth
I know you don't know, what life is really worth
It's not all that glitter's is gold, half the story has never been told
And now you see the light, you stand up for your right
Get up, stand up, stand up for your rights
Get up, stand up, don't give up the fight
You see, most people think great God will come from the sky
Take away everything and make everybody feel high
But if you know what life is worth, you would look for yours on earth
Now you see the light, stand up for your right
Get up, stand up, stand up for your right
Get up, stand up, don't give up a fight
Sick and tired of a the ism-skism game
Dyin' n' goin' to Heaven in a Jesus name, Lord
We know when we understand, Almighty God is a living man
You can fool some people sometimes
But you can't fool all the people all the time
And now you see the light, stand up for your right
Get up, stand up, stand up for your right
Get up, stand up, don't give up the fight
